

Abortion Referrals for North Carolina Women

State resources aimed at referral-makers counseling patients and clients with an unintended pregnancy rarely contain information about where to refer women for abortion care. We hope the information below will supplement existing referral information you have for patients or clients with an unintended pregnancy. This list includes abortion providers who are members of the National Abortion Federation, the Abortion Care Network, or who are Planned Parenthood affiliates. Planned Parenthood affiliates and clinic members of National Abortion Federation are subject to clinical quality audits. Clinic members of the Abortion Care Network are not subject to a clinical quality audit but belong to a national organization whose values and philosophy are to provide patients with the highest standards of care. There may be other high quality abortion providers in North Carolina, it is beyond *Provide's* current capacity to recommend them because we have no way of evaluating their clinical standards.
